Summary

Hii I'm Ariel and I'm FullStack Developer & I ♥ what I do

What led me to what I'm doing today ?

I've always been interested in this world, but at the Israel Defense Forces I received studies at ORT College & I discovered the FullStack world, and I immediately connected.

What are you doing today ?

Today I am still at Israel Defense Forces and graduating from ORT College

What I want to achieve in the Work Place ?

I want to learn new things and evolve

Skills

Windows & Linux

Front end Developer & Backend Developer

Team Player & Self-Learning

Projects

ShipMarket - side project

A food delivery platform for creating stores, ordering food and managing deliveries.

The client side consists of 4 panels: customers, store owners, couriers and admin, and authentications for each panel.

System sets orders and route to the client address through the store.

Technologies:

client side: react | redux

server side: node.js | express | jwt | socket.io

DB: MongoDB

client side source: https://github.com/Ariel-levi/ShipMarket_client

server side source: https://github.com/Ariel-levi/ShipMarket_server
